

ioGAS Workshop

August 24, 2011
1.00 pm - 5.00 pm
Rovaniemi FINLAND

Hotel Santa Claus
Korkalonkatu 29
Rovaniemi
FINLAND

With ioGAS fast becoming the desktop geochemistry software of choice by leading exploration and mining organisations world-wide we welcome the opportunity to invite you to attend our free ½ day ioGAS Fundamentals workshop as part of the **25th International Applied Geochemistry Symposium**.

ioGAS Fundamentals Workshop Agenda

Importing Data	Creating Plots	Classification Diagrams
Geochemical Aliasing	Attributing Data	Calculations
Data Validation	Making Selections	Gridded Images
Generating Statistics	Analysis Tools	Save, Copy, Export & Print

The course is designed for people with limited or no exposure to the ioGAS software through to more experienced users. Attendees are encouraged to bring their own laptops and also to feel free to bring their own geochemical datasets along with any questions as well.

Places are limited so to secure your place please complete and return the Registration form overleaf.

Who is the course for?
Exploration, Mine &
Resource Geologists,
Industry & Government
Geochemists,
Metallurgists
