

WS5: Exploration for orogenic gold deposits – with emphasis on geochemical exploration in glaciated Precambrian terrain

Pasi Eilu, Juhani Ojala and Pertti Sarala

Workshop program

Sunday, 21 August 2011, Hotel Santa Claus, Rovaniemi

8:30-9:00 am Registration

9:00 am Overview of the orogenic gold deposit type, Juhani Ojala

9:45 am Reference to other types of gold deposits in shield areas, Juhani Ojala

10:30 am Coffee break

10:45 Alteration and geochemical dispersion related to orogenic gold, Pasi Eilu

12:00 Lunch

13:15 Brief overview to the surficial geological and geochemical exploration for gold in glaciated terrains, Pertti Sarala

14:00 Discussion

14:30 Coffee

14:45-16.00 Ore and alteration zone samples, Pasi Eilu
